Meet our CPM team

Elin Nilsson

Director Clinical Project Management/Sr CPM

Elin holds a PhD in Clinical Chemistry and has 13 years' pharma industry experience, incl. 11 years as a CPM and the last 4.5 years in management positions. Elin has experience from working within different therapeutic areas, both with international clinical studies and medical device studies. She is used to manage a cross-functional team, including vendors and external CRO partners, and also has extensive experience working with sponsor oversight. Based at LINK Medical's office at Forskaren in Stockholm, Sweden.

9 CPMs

Distributed Across the Nordic Countries and Germany

4 Sr CPMs

With 8+ years in Clinical Studies

What Can You Expect of Our CPM Team?

Supports Biotech, Medtech and Pharma with project management of clinical studies – ensuring efficient execution, and that all sponsor obligations are fulfilled.

Experienced in managing cross-functional teams and vendors, acting as the primary point of contact, to ensure timelines, quality and budgets are adhered to.

Can function as an internal sponsor resource.

Collaborating closely with the CRO/ vendors, maintaining open and seamless communication.

Proactive risk management and issue follow up, ensuring mitigations to prevent recurrence.

A flexible and cost efficient outsourcing solution.

Local CPMs with international experience.
