

Bioequivalence to Market Access. Backed by Nordic Expertise.

Looking for a trusted Nordic partner to deliver fast and reliable bioequivalence trials?

With over 30 years of clinical research experience, LINK Medical has provided the agility and scientific expertise necessary for successful bioequivalence trials. Our wholly owned sites in Turku and Helsinki, Finland—well known as CRST—specialize in conducting these trials.

LINK Medical has earned a strong reputation as a trusted partner in bioequivalence trials, delivering high-quality data to demonstrate therapeutic equivalence, confirm safety and efficacy, and pave the way for regulatory approval. Our work is driven by a team of experts in clinical research, pharmacology, pharmacokinetics, regulatory affairs, safety, quality assurance, and market access.

Reach out to explore how our expertise can support your bioequivalence trial.
